

PRIMROSE HILL NATIONAL SCHOOL

ADMINISTRATION OF MEDICATION POLICY

This policy is formulated in accordance with guidelines issued by the (Primary Schools' Managerial Bodies) and the Irish National Teachers' Organisation.

While the Board of Management has a duty to safeguard the health and safety of pupils when they are engaged in authorised school activities, this does not imply a duty upon teachers to personally undertake the administration of medication (prescribed or unprescribed).

The Board of Management requests parents to ensure that staff members are made aware in writing of any long-term medical condition suffered by their child. This information should be provided at enrolment or at the development of any medical conditions at a later date.

Medication in this policy refers to medicines, tablets and sprays administered by mouth only.

Procedure to be followed by parents whose children require the administration of medication due to an ongoing condition.

The parent/guardian should write to the Board of Management requesting the Board to authorise a staff member to administer the medication or to monitor self-administration of the medication.

- **Parents are to provide a letter from the child's doctor stating diagnosis, medication prescribed and dosage details.**
- Parents are required to provide written instructions of the procedure to be followed in the administration and storing of the medication.
- Parents are responsible for ensuring that the medication is delivered to the school and handed over to a responsible adult and for ensuring that an adequate supply is available at the beginning of each term and school year.
- Parents are responsible for collecting medication at the end of each term and school year.
- Parents are further required to indemnify the Board and authorised members of staff in respect of any liability that may arise regarding the administration of prescribed medicines in school. The Board will inform the school's insurers accordingly.
- Changes in prescribed medication (or dosage) should be notified immediately to the school with clear written instructions of the procedure to be followed in storing and administering the new medication.
- Where children are suffering from life threatening conditions, parents should outline clearly in writing, what should and what should not be done in a particular emergency situation, with particular reference to what may be a risk to the child.
- Parents are required to provide a telephone number where they may be contacted in the event of an emergency arising.

Procedures to be followed by the Board of Management

- The Board, having considered the matter, may authorise a staff member to administer medication to a pupil or to monitor the self-administration by a pupil.
- The Board will ensure that the authorised person is properly instructed in how to administer the medicine.

- The Board shall seek an indemnity from parents in respect of liability that may arise regarding the administration of the medicine.
- The Board shall inform the school insurers accordingly.
- The Board shall make arrangements for the safe storage of medication and procedures for the administration of medication in the event of the authorised staff member's absence.

Responsibilities of Staff Members

- No staff member can be required to administer medication to a pupil.
- Any staff member who is willing to administer medicines should do so under strictly controlled guidelines in the belief that the administration is safe.
- Written instructions on the administration of the medication must be provided.
- Medication must not be administered without the specific authorisation of the Board of Management.
- In administering medication to pupils, staff members will exercise the standard of care of a reasonable and prudent parent.
- A written record of the date and time of administration will be kept.
- In emergency situations, staff should do no more than is obviously necessary and appropriate to relieve extreme distress or prevent further and otherwise irreparable harm. Qualified medical treatment should be secured in emergencies at the earliest opportunity.
- Parents should be contacted should any questions or emergencies arise.

Procedure to be followed by parents whose children require the administration of medication due to a short-term illness.

The parent/guardian should write to the Principal requesting a staff member to monitor self-administration of the prescribed medication. Parents should note that children must be able to give themselves the medication under the supervision of a staff member.

- **Parents are to provide a letter from the child's doctor stating diagnosis, medication prescribed and dosage details.**
- Parents are required to provide written instructions of the procedure to be followed in the administration and storing of the medication.
- Parents are responsible for ensuring that the medication is delivered to, and collected from the school and handed over to a responsible adult and for ensuring that an adequate supply is available.
- Parents are further required to indemnify the Board and authorised members of staff in respect of any liability that may arise regarding the administration of prescribed medicines in school. The Board will inform the school's insurers accordingly.
- No staff member can be required to administer or monitor self-administration.
- If a child is unable to self-administer the medication, then the parent must make arrangements to attend the school at the appropriate time to administer the medication themselves.

Parents are required to provide a telephone number where they may be contacted in the event of an emergency arising.

Administration of non-prescribed medications.

Parents/guardians are advised that no non-prescribed medications will be permitted unless administered by the parent or guardian with the exception of a throat lozenge accompanied by a written letter with instructions to the Class Teacher.
